# CRISTAL POWER XTL 100

## Ecological & biodegradable

Fossil-free biofuel made from used cooking oil allowing to reduce CO2 emissions by up to 90% compared to diesel.

-  Compatible with all diesel engines
-  No increase in fuel consumption
-  80% less black smoke emissions

-  Odourless
-  Reduced engine noise
-  Better engine life

Want to discover how biodiesel could transform your yacht's carbon footprint?
